G

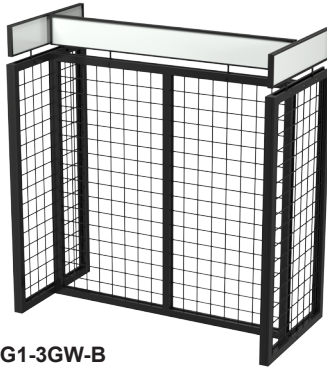

GONDOLA AND DIVIDER

Displays By Jack's new Universal Gondola Series (20 items at right) provide the ultimate flexibility for displaying merchandises and laying out new stores. The steel panel frame is designed to receive 24"X48" Gridwall, Slatwall (see Chapter V for panel color and groove treatment selections), Slatgrid and pegboard. The unit could be puzzled as one to five pieces assembling. Installation is as easy as 1-2-3. Add-on signages are optional.

G

GONDOLA AND DIVIDER

Displays By Jack's Gondola units are sold as kits and are designed to meet all your fixture needs. This system features a 1" on center slotting designed to exceed the load capacity of most retailer's needs. These units are virtually nut and bolt free and are easy to install.

A wide selection of component parts and accessories can be added to the Gondola Units, including shelves, racks wire fencing and back lit canopies, just to mention a few.

We use high quality and high density fiberglass - 20% fiberglass plus 80% resin. Finish with eco-friendly, non-benzene PU paint, which can be customized per your pantone color code. Matte and glossy finishes are optional. We also provide water-transfer pattern and chrome plated finishes. Our metal accessories are easy for assembling and stable. The metal base is 390mm diameter by 3mm thickness. Each whole body mannequin with calf/sole insert fitting. Last, we use high quality PVC hands that won't come out oil sludge after long usage in hot weather. Packing with EPE packaging and load in dual-covered cartons. That absorbs some impact and prevents damage during delivery. Customized mannequins are welcomed. Low mold charge, and high valued customized work. We can sculpture the mold per your design or magazine photos, any range, pose, finish, make-up, and with or without molded hair or wigs. Generally a prototype can be done in 2 weeks.

GS2011 DBJ Booth

This featured center shoe display fixture was modified from Displays By Jack's Global Shop 2011 (GS2011) exhibition booth design. We kept the origami design concept along with one demonstration of possible merchant display but the original booth design's 8' long wings were reduced to 24" in length. The 4 pieces of self standing metal wings are detached from the 8 base cabinets which gives the flexibility for future interior space design.

Vinyl (left) and Aluminum (right) Inserts: These inserts add hanging strength to the slatwall panel. Aluminum Inserts add the most strength and are recommended when displaying heavier items. Must purchase our slatwall with these inserts already installed in the groove. They can not be added later.

Color Snaps (left) & Trim Strips (right): Decorative inserts to hide the bare wood groove and do not add hanging strength. Color Snaps & Trim Strips may be purchased separately & added after slatwall is installed.

CUSTOMER SERVICE

At Displays By Jack, we have earned our reputation of excellence in customer service. All of the elements of our company come together to provide the customer with the best product for the best value. We realize the importance of all orders from multi store rollouts to fill-in orders. We know that the customer has trusted us to fulfill their needs and all resources are utilized to insure customer satisfaction. Customer service has evolved into Customer care. We are not just processing orders, we are developing long term relationships.

QUALITY CONTROL AND QUALITY ASSURANCE

Pride comes from our people and Pride shows in our products. Our quality control department oversees all fulfillment work, coordinates supplies, storage, and drop shipping for a seamless, Just-In-Time process. We pay extra attention to each detail from raw material, product fabrication, testing, packaging and distribution. It is through our continuous effort that our customers get the consistently high quality products they have come to expect.

Custom items will be priced according to quantity, material, finish and destination. Contact our factory representatives for quantity pricing and your custom design items.

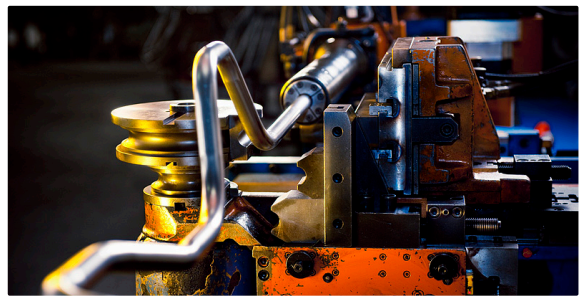

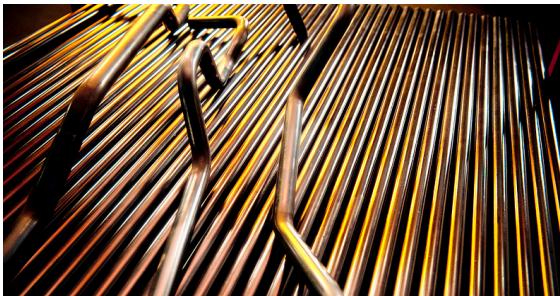

CUSTOM DESIGN

Our sales force and designers work with you to conceptualize your vision keeping your chain store brand identity in mind. Whether your needs are for a single function fixture or complete line of merchandising hardware, our team is ready and able to offer support. Providing custom design solutions that are unique and exclusive while maintaining your budget are the criteria we use. Utilizing our computer modeling software and hand sketches, our team can bring your project to life so you may see it prior to commissioning a prototype. A network of world-wide partners allows us the ability to offer our customers a large selection of design options and a wide array of material choices such as metal, wood, acrylic, recycled paper, fabric and much more. We also have the ability to fabricate mannequins to match the models from your seasonal marketing material.

CUSTOM DESIGN

MANUFACTURING AND WORKMANSHIP

Displays by Jack has been a manufacturer for the past 33 years, in that time we have become one of the leaders in supplying quality products. Many of the management staff have been with the company since its inception. This assures the client that the consistency of our products is maintained to the highest standard set from the beginning. Our association with our other partners gives you, the client, endless possibilities. Our customers receive the personal attention to insure our standards are maintained throughout the project. A complete array of finishes are available, such as chrome, dull nickel, zinc, and bronze plating. These finishes may also be polished, satined, and textured. Other options available are anodizing, power coating or custom graphic.

MANUFACTURING AND WORKMANSHIP

Please visit us at **www.DisplaysByJack.com** for more selections.

WAREHOUSING & DISTRIBUTION

Our new 74,000 square foot warehouse enables us to inventory numerous standard items that are most common in the industry. This gives our customer a reliable source to quickly fill their needs. DBJ also has a blanket order and distribution system which allows for planned multi store openings and rollout programs. Inventory can be released and tracked so that all due dates can be met. We ship anywhere in the US, Canada or Mexico by the customers specified carriers or make arrangements using any of the Freight Companies that we have negotiated rates with.

WAREHOUSING & DISTRIBUTION

Please visit us at www.DisplaysByJack.com for more selections.
