PREFACE

This catalog is designed to help you easily locate the products which you are interested in.

HOW TO USE THIS CATALOG

This catalog is paged with three combinations of alphabets and digits as following:

It begins with one alphabet which represents 26 chapters from A-Z and with illustrated icons for easy identification, see front table of contents.

Then this alphabet followed by two digits which represents various divisions, see each chapter's table of content.

And then again followed by two digits which represents a series of page numbers.

For example, if you are looking for our #MQ74C-4 arm garment rack, you should start as following procedure:

Outriggers are popular because of their easy installation. Since most of the weight is carried by the floor, the wall fastening needed is minimal. Install on 4' centers so standard hangrod and glass can be used.

**# STA300
CORNICE TYPE OUTRIGGER**

Constructed of 1" square tubing 84"H. Stands 15" from wall. Top cornice bracket is adjustable from 24" to 36". 1/2" slots in rear for all standards hangrail and shelf brackets. Polished chrome.

Takes:

- 1 - # LVGC** Leveler
- 1 - # STA-TB** Top bar
- 1 - # STA-B** Side Bar
- 1 - # STA-U** 1" sq. upright slotted one side.

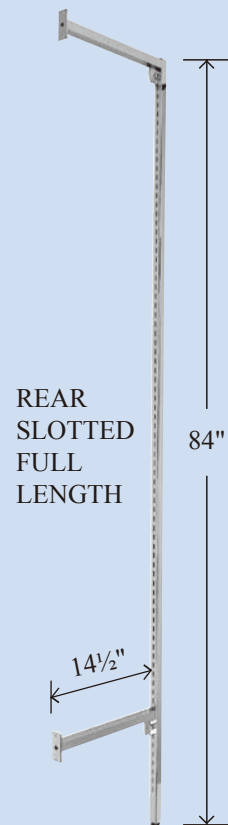

**# FIN300
FLUSH TOP OUTRIGGER**

Same as above, except no cornice arm. Polished chrome.

Takes:

- 1 - #LVGC** Leveler
- 2 - #FIN-B** Side Bar
- 1 - #FIN-U** 1" sq. upright slotted one side.

PS. # STA-B = # FIN-B

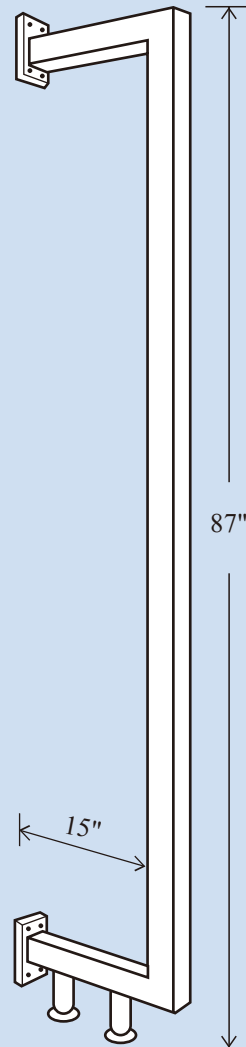

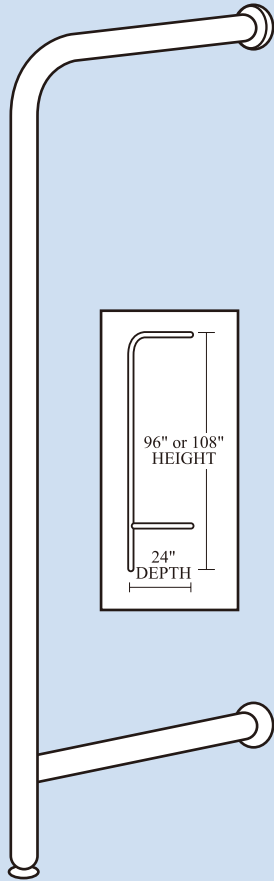

DELUXE OUTRIGGER WALL UNIT

Highly polished 1" × 2" chrome with 1/2" slots on rear.
